

Guard Management Services

SECOM has recently launched guard management services to expand our business scope. Guard management services covers the following area:

1. Security audit and preparing standard operating procedures for security guards
2. Offering third party management of in-house guards and third party guards (supplied by third party security vendor other than SECOM)
3. Training of in-house or third party guards
4. Regular audit, supervision and management of in-house and third party guards
5. Preparing monthly and incident reports
6. Assigning security manager or security supervisor to manage in-house or third party guards

The above service is to complement our guard services since some customers prefer to retain their guards be it in-house or outsourced from third party vendor but would like SECOM to manage them.

Those interested can contact Mr. Honda at 012-375 0598 or Mr. Frankie Chai at 019-320 8113.

SECOM community police patrolling

Since the launching of the community police patrolling in Shah Alam, we received favorable response from our customers and the public. Break-ins for Secom customers have dropped significantly since the police patrol act as a second back up to our response team. The police patrol can also act as the first response if they are nearer to the crime scene. This has enhanced our response team's confidence and instill fear to potential perpetrators.

Recently Secom Malaysia has been appointed as a dealer for Samsung Techwin CCTV system. We are also authorized dealers for Bosch, TOA, Ganz, Avermedia and Geovision CCTV systems.

Samsung SID-50 Dome CCD Camera : Optical lens

for wider surveillance area (Interchangeable lens)

A 3mm high-performance optical lens comes as standard, so you will have a wider field of view for surveillance in small areas such as in elevators or small stores. The lens is interchangeable with a 4, 6, or 8mm lens, making it very adaptable for different environments.

The SID-50 can record images in low light levels up to 0.002Lux. Samsung's outstanding noise reduction technology, SSNR, is implemented to reduce screen noise and to enhance the clarity of images even further.

1/3" High Resolution Mini Dome Camera

- 1/3" Super HAD color CCD with 410K pixels(N), 470K pixels(P)
- Built-in fixed lens (f3mm)
- Compact, Light weight and stylish design
- Removed noise & ghost images with SSNR
- High resolution of 540TV lines
- Min. illumination of 0.3Lux@F1.2 (Color) 0.05Lux@F1.2 (Sens-up)
- S/N ratio of 50dB
- Voltage : 12V DC

Conventional camera

Samsung SID-50
